Custom Builds

If you can think of it, chances are we can build it. If there is something you want built that is not listed here, we will work with you to build a quote for the patio of your dreams.

PAVERS AND CONCRETE

There are several options to go with when deciding what to build your structure on top of. We have years of experience laying pavers for our projects and we can offer you a competitive quote on pavers at around \$20 sq/ft. Additionally we can offer concrete for our projects, however pricing is handled on a case by case basis due to several factors in the construction process.

If required, we can construct a block retaining wall for around \$22 sq/ft. Here are a few readily available options for pavers from the Keystone Catalog

Granite

Ashley River Blend
